

# QUICKVUE®

iFOB TEST  
Immunochemical Fecal Occult Blood

One test. One time.

## A rapid test that offers solutions in the following ways for patients:

- Only one sample collection required
- No dietary restrictions
- Easy and convenient collection and return
- Sample collection completed in the privacy and comfort of your own home
- Easy and convenient sample return process using U.S. Postal Service compliant packaging

## A rapid test that offers solutions in the following ways for physicians:

- FAST – results in 5-10 minutes
- EASY – requires only 90 seconds of hands on time and is CLIA waived
- ACCURATE – specific to human hemoglobin; analytical sensitivity: 50 ng hHb/mL buffer or 50 µg hHb/g feces
- Relevant CPT codes<sup>1</sup> include 87804 and 87804QW<sup>2</sup>

## QuickVue® iFOB test components are available in two convenient configurations:

- Cat. # 20194 QuickVue® iFOB 20 test kit
- Cat. # 20196 QuickVue® iFOB Specimen Collection and Return 10 test kit

For ordering information, please contact your preferred medical products provider or contact Quidel at 800.874.1517 or visit [www.quidel.com](http://www.quidel.com)

<sup>1</sup>Under Federal and State law, it is the individual provider's responsibility to determine appropriate coding, charges and claims for a particular service. Policies regarding appropriate coding and payment levels can vary greatly from payer to payer and change over time. Quidel Corporation strongly recommends that providers contact their own regional payers to determine appropriate coding and charge or payment levels prior to submitting claims.

<sup>2</sup>"QW" Modifier – added to report use of CLIA-waved test system(s) for Medicare/Medicaid claims.
